

We would like to thank the members of the **Leadership Douglas County Program Class of 2016** and the **Christian Brothers Automotive** group who gave their time to Praying Hands Ranches II on a huge project.

“As the **Class of 2016**, we decided to do a project for Praying Hands Ranch II, a ranch for veterans with PTSD, Traumatic Brain Injury and Combat Related Injuries. This non-profit ranch is designed to be a place where veterans can get away from the daily struggles of city life. During our scouting day, we realized that the garden area needed a lot of work and chose to work on it. We built a fence for the front of the garden area, three gates in the fence that were wheelchair accessible and four raised garden boxes. We garnered donations for all of the lumber and tools, and had enough money left over to donate to the ranch itself.”
